Project Manager Facility Management

Do you have an interest in real estate? Are you analytical and want to be part of a strong team? Then you could be the one that we are looking for!

What you will do

You are part of the team within Facility Management which is responsible for strategic management and through processes and guidelines support the operation of our real estate offices in Stockholm, Örebro, Gothenburg and Malmö as well as our warehouses in Rosersberg, Örebro and Halmstad. The position includes a lot of contact with other departments nationally as well as internationally and you therefore see it as a matter of course to act as contact person and support in your area of expertise.

Main responsibilities:

- Being a client and setter of requirements
- Continuous quality follow-ups
- Being responsible for contracts and follow up on service deliveries
- Working with energy monitoring and energy management systems
- Creating recurring reports
- Developing and pushing through changes based on analyses

What you will need

To fit in this position you will need to have a higher educational degree in real estate, energy or economics. Experience from facility management is meritorious. We highly value having strong analytical skills and being a social person who takes a lot of ownership of your area of expertise. To succeed in the role, you have a structured way of working and good knowledge of how to work in Word, Powerpoint and Excel. Driver's license is a requirement since travels may occur in the position.
